SUBJECT INDEX TO VOLUME 102

ABDOMEN, Use of intravenous cholangiocholecystography in diagnosis of acute conditions of, 218; Abdominal approach for repair of cystocele, 244; Simple retainer for small bowel during intra-abdominal operations, 248

Abnormalities and deformities, Management of cryptorchism, 177; congenital, Direct vision repair of triatrial heart and total anomalous pulmonary venous drainage, 713

Abscess, Chronic recurrent breast, secondary to inversion of nipple, 439

Adrenals, Thyroid activity during operation, 129

Alkaloids, veratrum and rauwolfia, Hemodynamic effects and clinical application of mixture of, 37

Ambulation, early, Lumbosacral fusion results with, 604

American College of Surgeons, Clinical Congress, Preliminary plans for 42nd, Civic Auditorium, San Francisco, California, October 8 to October 12, 1956, 761

Amputations, Lateral flap technique in supracondylar, 751

Anatomy, Surgical, of facial nerve and parotid gland based upon study of 350 cervicofacial halves, 385

Anemia, Blood replacement therapy, use and abuse, ed. 241; splenic, Evaluation of splenectomy in treatment of Egyptian splenomegaly (fibrocongestive splenomegaly), 588

Anesthetics, Cardiac arrest, 607

Aneurysm, Dissecting, of aorta, ed. 372

Antibiotics, Intraperitoneal, administration in treatment of acute bacterial peritonitis, 339; Biliary excretion of erythromycin (ilotycin), 355

Aorta, New method for surgical correction of transposition of, and pulmonary artery, 227; Fate of autogenous skin tubes as, grafts, 309; Dissecting aneurysm of, ed. 372

Arteries, coronary, Occlusion of great cardiac vein and, ligation, 18; pulmonary, New method for surgical correction of transposition of aorta and, 227; mesenteric, Results of interruption of inferior, and its branches in rhesus monkey, 331; Surgical technique of ligation of inferior mesenteric, and preaortic lymphadenectomy, 374; Surgical anatomy of facial nerve and parotid gland based upon study of 350 cervicofacial halves, 385; Peripheral, replacement with chemically treated nylon tubes, 443; renal, Immunologic studies in, homotransplantation, 450; hepatic, ligation, Acute, ischemia in dogs, 689

Arteriosclerosis, Evaluation of peripheral, insufficiency with radioactive iodinated human serum albumin, 511

Asepsis and antisepsis, Minor open wounds, ed. 369; On listerism, 500

BACTERIA, Intraperitoneal antibiotic administration in treatment of acute, peritonitis, 339

Baldy, John Montgomery, John Clarence Webster, and their operation for uterine retroversion, 377

Bile ducts, Use of intravenous cholangiocholecystography in diagnosis of acute conditions of abdomen, 218; common, Choledochotomy, ed. 495

Biliary tract, excretion of erythromycin (ilotycin), 355

Bladder, Abdominal approach for repair of cystocele, 244; Artificial, from segment of stomach and study of effect of urine on gastric secretion, 433; Urinary obstructions in children, ed. 748

Blood, circulation, Occlusion of great cardiac vein and coronary artery ligation, 18; circulation, Hemodynamic effects and clinical application of mixture of veratrum and rauwolfia alkaloids, 37; coagulation, Experimental and clinical study of prevention of thrombophlebitic sequelae by cortisone acetate (11-dehydro-17-hydroxycorticosterone-21-acetate), 66; circulation, Studies on hypothermia in monkeys—I, effect of hypothermia on prolongation of permissible time of total occlusion of afferent, of brain, 75; circulation, Profound hypothermia in dog, 98; circulation, Studies on hypothermia in monkeys—II, effect of hypothermia on general physiology and cerebral metabolism of monkeys in hypothermic state, 134; volume, replacement therapy, use and abuse, ed. 241; volume, changes in cases of cerebral trauma as determined by radioactive isotopes, 263; circulation, collateral, Results of interruption of inferior mesenteric artery and its branches in rhesus monkey, 331; cross circulation, Immunologic studies in renal homotransplantation, 450; plasma, Postoperative thrombin production, 463; plasma, sodium, Relationship between, concentration and state of hydration of burned patients, 472; plasma, Antitryptic substances in experimental acute pancreatitis, 483; Serum, proteins and lipoproteins in patients with carcinoma and in subjects free of recurrence, 487; circulation, Evaluation of peripheral arteriosclerotic insufficiency utilizing radioactive iodinated human serum albumin, 511; circulation, Experimental study of intrahepatic distribution of portal, 543; circulation, Acute hepatic ischemia in dogs, 689

Blood transfusion, replacement therapy, use and abuse, ed. 241

Blood vessels, cerebrovascular, Studies on hypothermia in monkeys—I, effect of hypothermia on prolongation of permissible time of total occlusion of afferent circulation of brain, 75; Fate of autogenous skin tubes as aorta grafts, 309; Hemangiomas of extremities, 531

Bone, growth, Histochemical studies on osteogenesis after transplantation of, 646; Hoarseness and painful deglutition due to massive cervical exostoses, 657; cancer, metastases, Skeletal, in, of breast, 683

Book Shelf, History of treatment of burns, 116; History of plaster of Paris bandages, 249; John Clarence Webster, John Montgomery Baldy, and their operation for uterine retroversion, 377; On listerism, 500; Samuel W. Crawford and fall of Sumter, 629

Brain, blood supply, Studies on hypothermia in monkeys—I, effect of hypothermia on prolongation of permissible time of total occlusion of afferent circulation of, 75; Studies on hypothermia in monkeys—II, effect of hypothermia on general physiology and cerebral metabolism of monkeys in hypothermic state, 134; Blood volume changes in cases of cerebral trauma as determined by radioactive isotopes, 263

Breast, Histochemical study of, carcinoma, 1; In vitro and clinical effects of urethane plus triethylene melamine on human, cancer, 420; Chronic recurrent, abscess secondary to inversion of nipple, 439; Influence of hormone therapy on metastatic mammary carcinoma, 545; Infiltrating lobular carcinoma of female mammary gland, 661; Skeletal metastases in cancer of, 683

Burns, History of treatment of, 116; Relationship between plasma sodium concentration and state of hydration of burned patient, 472; Studies on growth hormone—II, effect on nitrogen metabolism of severely burned patients, 695

CALORIC INTAKE, Parenteral calories from synthetic water soluble fat, 154
Cancer, Histochemical study of breast carcinoma, 1; Danger of surgical dissemination of papillary carcinoma of thyroid, 161; Analysis of cytologic screening for uterine, (9,815 cases), 215; Consideration of some problems of large bowel carcinoma, 257; Evaluation of surgical treatment of carcinoma of stomach, 271; Metastasis to regional nodes of splenic hilus from carcinoma of stomach, 279; Treatment of, of nasal cavity and paranasal sinuses, 322; Palliation of ovarian carcinoma with phosphoramide drugs, 347; In vitro and clinical effects of urethane plus triethylene melamine on human breast, 420; Histologic changes in uterine cervix during pregnancy and diagnosis of carcinoma in situ, 427; Serum proteins and lipoproteins in patients with carcinoma and in subjects free of recurrence, 487; Supraradical operations for, ed. 492; Influence of hormone therapy on metastatic mammary carcinoma, 545; Primary carcinoma of ovary, 565; Structural representations of tumor-host relationships in gastric carcinoma, 599; Node dissection in, of endometrium, 649; Infiltrating lobular carcinoma of female mammary gland, 661; Carcinoma in situ of uterine cervix, 677; Skeletal metastases in, of breast, 683
Carcinoma, see Cancer
Caustic strictures, Treatment of, of esophagus, 195
Cells, hepatic, Cellular changes during surgical stress—I, morphologic alterations in, 702
Cesarean section, 616
Children, Urinary obstructions in, ed. 748
Cholecystectomy, Safe technique for difficult, utilizing intravesical manipulation, 112
Cholecystitis, Acute, following surgical treatment of unrelated disease, 145, cor. 510
Choledochotomy, ed. 495
Cholografin, Intravenous cholangiocholecystography in diagnosis of acute conditions of abdomen, 218
Collagen, Effect of methionine on production of mucopolysaccharides and, in healing wounds of protein-depleted animals, 639
Colon, Consideration of some problems of large bowel carcinoma, 257
Coronary vessels, Occlusion of great cardiac vein and, artery ligation, 18
Corrosion, Treatment of caustic strictures of esophagus, 195
Cortisone acetate, Experimental and clinical study of prevention of thrombophlebitic sequelae by, (11-dehydro-17-hydroxycorticosterone-21-acetate), 66
Crawford, Samuel W., and fall of Sumter, 629
Cryptorchism, Management of, 177
Cystocele, Abdominal approach for repair of, 244
Cytology, Analysis of cytologic screening for uterine cancer (9,815 cases), 215

DEGLUTITION, Hoarseness and painful, due to massive cervical exostoses, 657
Dermatitis, Skin replacement for severe radiation, of face, 581
Diagnosis, Use of intravenous cholangiocholecystography in, of acute conditions of abdomen, 218; Roentgen, of spontaneous internal biliary fistulas and gallstone ileus, 234; differential, Massive gastrointestinal hemorrhage, ed. 239; differential, Molluscum pseudocarcinomatosum, 574
Diaphragm, Anatomic and technical considerations in treatment of esophageal hiatal hernia, 187
Diverticulitis, Surgical management of, 721
Drainage, Accurate placement of Penrose drain, 497
Dressings and bandages, History of plaster of Paris, 249
Duodenum, Associated gastric and duodenal ulcers, 287; Afferent loop of jejunum, ed. 621
Dyes, radioactive iodine labelled rose bengal, Experimental study of intrahepatic distribution of portal blood, 543

ECLAMPSIA, Hemodynamic effects and clinical application of mixture of veratrum and rauwolfia alkaloids, 37
Education, medical, of laymen, Minor open wounds, ed. 369
Electrolytes, Relationship between plasma sodium concentration and state of hydration of burned patients, 472
Endometrium, Node dissection in cancer of, 649
Erythromycin, Biliary excretion of, (ilotycin), 355
Esophagus, Anatomic and technical considerations in treatment of esophageal hiatal hernia, 187; Treatment of caustic strictures of, 195; Lateral decubitus position in surgery of cervical esophageal diverticulum, 498; varix, Emergency portacaval shunt, 668
Extremities, blood supply, Evaluation of peripheral arteriosclerotic insufficiency utilizing radioactive iodinated human serum albumin, 511; blood supply, Ligation of inferior vena cava with absorbable gut, 517; Hemangiomas of, 531; Recurrent varicose veins, 729; Lateral flap technique in supracondylar amputations, 751

FACE, Skin replacement for severe radiation dermatitis of, 581
Fat, Parenteral calories from synthetic water soluble, 154
Fat emulsion, Observations on patient tolerance with intravenous administration of, 737
Fibrinogen, Postoperative thrombin production, 463
Fistula, biliary, Roentgen diagnosis of spontaneous internal, and gallstone ileus, 234; Etiology and technique of surgical management of pancreatic, 413
Flap, Lateral, technique in supracondylar amputations, 751
Fluid, balance, Relationship between plasma sodium concentration and state of hydration of burned patients, 472; balance, Effect of acute potassium depletion on functional compartmentalization of water, 553

GALLBLADDER, Safe technique for difficult cholecystectomy utilizing intravesical manipulation, 112; Acute cholecystitis following surgical treatment of unrelated disease, 145, cor. 510; Use of intravenous cholangiocholecystography in diagnosis of acute conditions of abdomen, 218
Gangrene, diabetic, Lateral flap technique in supracondylar amputations, 751
Gastrointestinal tract, Massive, hemorrhage, ed. 239
Glucose monoaleuritate, Parenteral calories from synthetic water soluble fat, 154
Gold, radioactive, Mediastinal lymph node irradiation with, 166
Grafts, aortic, New method for surgical correction of transposition of, and pulmonary artery, 227; aortic, Fate of autogenous skin tubes as aorta, 309; vascular, Peripheral artery replacement with chemically treated nylon tubes, 443; Skin, replacement for severe radiation dermatitis of face, 581

HEART, Occlusion of great cardiac vein and coronary artery ligation, 18; Profound hypothermia in dog, 98;

Cardiac arrest, 607; surgery, Present status of patients subjected to mitral commissurotomy five or more years ago, ed. 623; Direct vision repair of triatrial, and total anomalous pulmonary venous drainage, 713
Heidenhain pouch, Artificial bladder from segment of stomach and effect of urine on gastric secretion, 433
Hemangioma, of extremities, 531
Hemorrhage, Massive gastrointestinal, ed. 239; Emergency portacaval shunt, 668
Hernia, inguinal, Analysis of 313 consecutive cases of indirect sliding, 45; Anatomic and technical considerations in treatment of esophageal hiatal, 187
Histochemistry, study of breast carcinoma, 1
Hoarseness, and painful deglutition due to massive cervical exostoses, 657
Homografts, Immunologic studies in renal homotransplantation, 450
Hormones, Influence of, therapy on metastatic mammary carcinoma, 545; growth, Studies on,—II, effect on nitrogen metabolism of severely burned patients, 695
Hospital bed, What is, ed. 110
Hypertension, Hemodynamic effects and clinical application of mixture of veratrum and rauwolfia alkaloids, 37
Hypothermia, Studies on, in monkeys—I, effect of, on prolongation of permissible time of total occlusion of afferent circulation of brain, 75; Profound, in dog, 98; Studies on, in monkeys—II, effect of, on general physiology and cerebral metabolism of monkeys in hypothermic state, 134
Hysterectomy, in young women, 539

Ileum, Isolated ileal loops for ureteral repair, 87
Ileus, gallstone, Roentgen diagnosis of spontaneous internal biliary fistulas and, 234
Immunology, Immunologic studies in renal homotransplantation, 450
Infants, newborn, Pathogenesis of hypertrophic stenosis of pylorus in, and adult, 705
Infection, surgical, Tetracycline therapy of, 9; Osteomyelitis of vertebrae as result of, of urinary tract, 207; Minor open wounds, ed. 369
Instruments and apparatus, Simple retainer for small bowel during intra-abdominal operations, 248; nylon tubes, Peripheral artery replacement with chemically treated, 443; koroseal tube, Simple, for intestinal intubation during surgery, 626; Sengstaken-Blakemore balloon, Emergency portacaval shunt, 668
Intestines, Simple retainer for small bowel during intra-abdominal operations, 248; Consideration of some problems of large bowel carcinoma, 257; Simple tube for intestinal intubation during surgery, 626; diverticulum, Surgical management of diverticulitis, 721
Ischemia, Results of interruption of inferior mesenteric artery and its branches in rhesus monkey, 331; Acute hepatic, in dogs, 689
Isotopes, Blood volume changes in cases of cerebral trauma as determined by radioactive, 263

Jejunum, Afferent loop of, ed. 621

Kidney, Immunologic studies in renal homotransplantation, 450

Labor, Cesarean section, 616
Ligation, Results of interruption of inferior mesenteric artery and its branches in rhesus monkey, 331; Surgical technique of, of inferior mesenteric artery and preaortic lymphadenectomy, 374; of inferior vena cava with absorbable gut, 517
Lister, Joseph Baron, On listerism, 500
Liver, function tests, Experimental study of intrahepatic distribution of portal blood, 543; Evaluation of splenectomy in treatment of Egyptian splenomegaly (fibrocongestive splenomegaly), 588; Acute hepatic ischemia in dogs, 689; Cellular changes during surgical stress—I, morphologic alterations in hepatic cells, 702
Lumbosacral region, fusion results with early ambulation, 604
Lungs, Mediastinal lymph node irradiation with radioactive gold, 166; Parietal pleurectomy for recurrent spontaneous pneumothorax, 293
Lymph glands, Surgical technique of ligation of inferior mesenteric artery and preaortic lymphadenectomy, 374
Lymph nodes, Mediastinal, irradiation with radioactive gold, 166; Metastasis to regional, of splenic hilus from carcinoma of stomach, 279; Structural representations of tumor-host relationships in gastric carcinoma, 599; dissection in cancer of endometrium, 649

Medication, Medical management of obstructive complications in peptic ulcer, 33
Medicine, History, of treatment of burns, 116; History, of plaster of Paris bandages, 249; history, On listerism, 500; history, Samuel W. Crawford and fall of Sumter, 629
Metabolism, Thyroid activity during operation, 129; Studies on hypothermia in monkeys—II, effect of hypothermia on general physiology and cerebral, of monkeys in hypothermic state, 134; Parenteral calories from synthetic water soluble fat, 154; In vitro and clinical effects of urethane plus triethylene melamine on human breast cancer, 420; proteins, Studies on growth hormone—II, effect on nitrogen, of severely burned patients, 695; Cellular changes during surgical stress—I, morphologic alterations in hepatic cells, 702
Methionine, Effect of, on production of mucopolysaccharides and collagen in healing wounds of protein-depleted animals, 639
Mitral valve, Present status of patients subjected to, commissurotomy five or more years ago, ed. 623
Molluscum pseudocarcinomatosum, 574
Mucopolysaccharides, Effect of methionine on production of, and collagen in healing wounds of protein-depleted animals, 639
Muscles, peroneus longus, Peroneal translocation for paralysis of plantar flexor, 469

Nasal cavity, Treatment of cancer of, and paranasal sinuses, 322
Neck, Hoarseness and painful deglutition due to massive cervical exostoses, 657
Neomycin, Intraperitoneal antibiotic administration in treatment of acute bacterial peritonitis, 339
Nerves, facial, Surgical anatomy of, and parotid gland based upon study of 350 cervicofacial halves, 385; cells, Pathogenesis of hypertrophic stenosis of pylorus in newborn and adult, 705
Nipples, Chronic recurrent breast abscess secondary to inversion of, 439
Nitrogen, Parenteral calories from synthetic water soluble fat, 154; metabolism, Studies on growth hormone—II, effect on, of severely burned patients, 695
Nutrition, Parenteral calories from synthetic water soluble fat, 154; Observations on patient tolerance with intravenous administration of fat emulsion, 737
Nylon tubes, Peripheral artery replacement with chemically treated, 443

Osteomyelitis, of vertebrae as result of infection of urinary tract, 207

Ovary, Palliation of ovarian carcinoma with phosphoramide drugs, 347; Primary carcinoma of, 565
Oxygen, cerebral consumption, Studies on hypothermia in monkeys—II, effect of hypothermia on general physiology and cerebral metabolism of monkeys in hypothermic state, 134
Oxytetracycline, Intraperitoneal antibiotic administration in treatment of acute bacterial peritonitis, 339

PANCREAS, Postoperative acute pancreatitis, 139
Pancreatic ducts, Etiology and technique of surgical management of, fistula, 413
Pancreatitis, Postoperative acute, 139; Antitryptic substances in experimental acute, 483
Paralysis, Peroneal translocation for, of plantar flexor muscles, 469
Parotid gland, Sialography, 315; Surgical anatomy of facial nerve and, based upon study of 350 cervicofacial halves, 385
Patient, hospital, What is, bed, ed. 110
Pelvis, Abdominal approach for repair of cystocele, 244
Penrose drain, Accurate placement of, 497
Peptic ulcer, Medical management of obstructive complications in, 33; Associated gastric and duodenal ulcers, 287; Vagotomy and pylorectomy in treatment of duodenal ulceration, 358
Peritoneum, Intraperitoneal antibiotic administration in treatment of acute bacterial peritonitis, 339
Peritonitis, Intraperitoneal antibiotic administration in treatment of acute bacterial, 339
Phosphoramide drugs, Palliation of ovarian carcinoma with, 347
Physiology, Studies on hypothermia in monkeys—II, effect of hypothermia on general, and cerebral metabolism of monkeys in hypothermic state, 134
Plasma, see Blood, plasma
Plaster of Paris, History of, bandages, 249
Pleurectomy, Parietal, for recurrent spontaneous pneumothorax, 293
Plexus, Pathogenesis of hypertrophic stenosis of pylorus in newborn and adult, 705
Pneumothorax, Parietal pleurectomy for recurrent spontaneous, 293
Poliomyelitis, Peroneal translocation for paralysis of plantar flexor muscles, 469
Portal vein, Experimental study of intrahepatic distribution of portal blood, 543; Emergency portacaval shunt, 668; ligation, Acute hepatic ischemia in dogs, 689
Position, Lateral decubitus, in surgery of cervical esophageal diverticulum, 498
Potassium, Effect of acute, depletion on functional compartmentalization of water, 553
Pregnancy, toxemia of, Hemodynamic effects and clinical application of mixture of veratrum and rauwolfia alkaloids, 37; Histologic changes in uterine cervix during, and diagnosis of carcinoma in situ, 427
Protein, metabolism, Parenteral calories from synthetic water soluble fat, 154; Effect of methionine on production of mucopolysaccharides and collagen in healing wounds of, depleted animals, 639
Psychosis, in surgical patients, 59
Pylorectomy, Vagotomy and, in treatment of duodenal ulceration, 358
Pylorus, stenosis, Pathogenesis of hypertrophic, of, in newborn and adult, 705

RADIATION, Skin replacement for severe, dermatitis of face, 581
Radioactivity, Mediastinal lymph node irradiation with radioactive gold, 166; Blood volume changes in cases of cerebral trauma as determined by radioactive isotopes, 263; Evaluation of peripheral arteriosclerotic insufficiency utilizing radioactive iodinated human serum albumin, 511; Experimental study of intrahepatic distribution of portal blood, 543
Radioiodine, protein-bound, Thyroid activity during operation, 129
Resperine, Hemodynamic effects and clinical application of mixture of veratrum and rauwolfia alkaloids, 37
Respiration, oxygen and carbon dioxide mixtures, Profound hypothermia in dog, 98
Resuscitation, Cardiac arrest, 607
Roentgen ray, diagnosis, Use of intravenous cholangiocholecystography in diagnosis of acute conditions of abdomen, 218; diagnosis, of spontaneous internal biliary fistulas and gallstone ileus, 234

SALIVARY GLANDS, Sialography, 315
Serum, radioactive iodinated human, albumin, Blood volume changes in cases of cerebral trauma as determined by radioactive isotopes, 263; proteins, lipoproteins, and, in patients with carcinoma and in subjects free of recurrence, 487; Evaluation of peripheral arteriosclerotic insufficiency utilizing radioactive iodinated human, albumin, 511
Shock, Effect of acute potassium depletion on functional compartmentalization of water, 553
Sialography, 315
Sigmoid colon, Surgical management of diverticulitis, 721
Sinuses, paranasal, Treatment of cancer of nasal cavity and, 322
Skill, No substitute for, ed. 107
Skin, tubes, Fate of autogenous, as aorta grafts, 309; Molluscum pseudocarcinomatosum, 574; replacement for severe radiation dermatitis of face, 581
Sodium, balance, Relationship between plasma, concentration and state of hydration of burned patients, 472; Effect of acute potassium depletion on functional compartmentalization of water, 553
Spine, surgery, Lumbosacral fusion results with early ambulation, 604; Hoarseness and painful deglutition due to massive cervical exostoses, 657
Spleen, Metastasis to regional nodes of splenic hilus from carcinoma of stomach, 279; excision, Evaluation of splenectomy in treatment of Egyptian splenomegaly (fibrocongestive splenomegaly), 588
Splenomegaly, Evaluation of splenectomy in treatment of Egyptian, (fibrocongestive,), 588
Stains, periodic acid Schiff, Histochemical studies on osteogenesis after transplantation of bone, 646
Stomach, Medical management of obstructive complications in peptic ulcer, 33; Evaluation of surgical treatment of carcinoma of, 271; Metastasis to regional nodes of splenic hilus from carcinoma of, 279; Associated gastric and duodenal ulcers, 287; Vagotomy and pylorectomy in treatment of duodenal ulceration, 358; Artificial bladder from segment of, and study of effect of urine on gastric secretion, 433; Structural representations of tumor-host relationships in gastric carcinoma, 599; Afferent loop of jejunum., ed. 621
Sumter, Samuel W. Crawford and fall of, 629
Surgeon, No substitute for skill, ed. 107
Surgeon at work, Safe technique for difficult cholecystectomy utilizing intravesical manipulation, 112; Abdominal approach for repair of cystocele, 244; Simple retainer for small bowel during intra-abdominal operations, 248; Surgical technique of ligation of inferior mesenteric artery and preaortic lymphadenectomy, 374; Accurate placement of Penrose drain, 497; Lateral decubitus position in surgery of cervical esophageal diverticulum, 498; Simple tube for intestinal intubation during surgery, 626; Lateral flap technique in supracondylar amputations, 751

Surgery, postoperative care, Tetracycline therapy of surgical infections, 9; postoperative complications, Psychosis in surgical patients, 59; technique, Isolated ileal loops for ureteral repair, 87; No substitute for skill, ed. 107; technique, Safe, for difficult cholecystectomy utilizing intravesical manipulation, 112; postoperative complications, acute pancreatitis, 139; postoperative complications, Acute cholecystitis following surgical treatment of unrelated disease, 145, cor. 510; technique, New method for surgical correction of transposition of aorta and pulmonary artery, 227; postoperative complications, Blood replacement therapy, use and abuse, ed. 241; technique, Abdominal approach for repair of cystocele, 244; technique, Simple retainer for small bowel during intra-abdominal operations, 248; Consideration of some problems of large bowel carcinoma, 257; Evaluation of surgical treatment of carcinoma of stomach, 271; technique, Surgical, of ligation of inferior mesenteric artery and preaortic lymphadenectomy, 374; John Clarence Webster, John Montgomery Baldy, and their operation for uterine retroversion, 377; technique, Etiology and, of surgical management of pancreatic fistula, 413; technique, Artifical bladder from segment of stomach and study of effect of urine on gastric secretion, 433; postoperative complications, Postoperative thrombin production, 463; Supraradical operations for cancer, ed. 492; Choledochotomy, ed. 495; position, Lateral decubitus, in, of cervical esophageal diverticulum, 498; On listerism, 500; plastic, Skin replacement for severe radiation dermatitis of face, 581; postoperative care, Lumbosacral fusion results with early ambulation, 604; heart in, Cardiac arrest, 607; Simple tube for intestinal intubation during, 626; technique, Emergency portacaval shunt, 668; Cellular changes during surgical stress—I, morphologic alterations in hepatic cells, 702; technique, Direct vision repair of triatrial heart and total anomalous pulmonary venous drainage, 713; technique, Surgical management of diverticulitis, 721; Recurrent varicose veins, 729; technique, Lateral flap, in supracondylar amputations, 751

Sutures, Ligation of inferior vena cava with absorbable gut, 517

TENDONS, translocation, Peroneal, for paralysis of plantar flexor muscles, 469

Testis, Management of cryptorchism, 177

Tetracycline, therapy of surgical infections, 9

Thrombin, Postoperative, production, 463

Thrombophlebitis, Experimental and clinical study of prevention of thrombophebitic sequelae by cortisone acetate (11-dehydro-17-hydroxycorticosterone-21-acetate), 66

Thrombosis, Postoperative thrombin production, 463

Thyroid, metabolism, activity during operation, 129; Danger of surgical dissemination of papillary carcinoma of, 161

Tissues, Histologic changes in uterine cervix during pregnancy and diagnosis of carcinoma in situ, 427; Effect of methionine on production of mucopolysaccharides and collagen in healing wounds of protein-depleted animals, 639; Histochemical studies on osteogenesis after transplantation of bone, 646; Wound healing, ed. 750

Tolerance, Observations on patient, with intravenous administration of fat emulsion, 737

Transplantation, Immunologic studies in renal homotransplantation, 450; of bone, Histochemical studies on osteogenesis after, 646

Trauma, operative, Thyroid activity during operation, 129; surgical, Postoperative acute pancreatitis, 139; Blood volume changes in cases of cerebral, as determined by radioactive isotopes, 263; Minor open wounds, ed. 369; Wound healing, ed. 750

Triethylene melamine, In vitro and clinical effects of urethane plus, on human breast cancer, 420

Trypsin, Antitryptic substances in experimental acute pancreatitis, 483

Tube, Simple, for intestinal intubation during surgery, 626

Tumors, angioma, Hemangiomas of extremities, 531

ULCERS, Associated gastric and duodenal, 287; duodenal, Vagotomy and pylorectomy in treatment of, 358

Ureters, Structural components of ureteral enlargement caused by obstruction, 27; Isolated ileal loops for ureteral repair, 87; Artificial bladder from segment of stomach and study of effect of urine on gastric secretion, 433

Urethane, In vitro and clinical effects of, plus triethylene melamine on human breast cancer, 420

Urinary tract, Osteomyelitis of vertebrae as result of infection of, 207; Accurate placement of Penrose drain, 497; obstructions in children, ed. 748

Urine, Artificial bladder from segment of stomach and study of effect of, on gastric secretion, 433

Uterus, John Clarence Webster, John Montgomery Baldy, and their operation for uterine retroversion, 377; Hysterectomy in young women, 539; Node dissection in cancer of endometrium, 649

Uterus cervix, Analysis of cytologic screening for uterine cancer (9,815 cases), 215; Histologic changes in uterine, during pregnancy and diagnosis of carcinoma in situ, 427; Carcinoma in situ of uterine, 677

VAGOTOMY, and pylorectomy in treatment of duodenal ulceration, 358

Varicose veins, Recurrent, 729

Veins, great cardiac, Occlusion of, and coronary artery ligation, 18; obstruction, Experimental and clinical study of prevention of thrombophlebitic sequelae by cortisone acetate (11-dehydro-17-hydroxycorticosterone-21-acetate), 66; Surgical anatomy of facial nerve and parotid gland based upon study of 350 cervicofacial halves, 385; pulmonary, Direct vision repair of triatrial heart and total anomalous, venous drainage, 713; saphenous, Recurrent varicose, 729

Vena cava, Ligation of inferior, with absorbable gut, 517; Emergency portacaval shunt, 668

Veratrum, Hemodynamic effects and clinical application of mixture of, and rauwolfia alkaloids, 37

Vertebra, Osteomyelitis of, as result of infection of urinary tract, 207

WATER, balance, Effect of acute potassium depletion on functional compartmentalization of, 553

Webster, John Clarence, John Montgomery Baldy, and their operation for uterine retroversion, 377

Wounds, healing, Tetracycline therapy of surgical infections, 9; Minor open, ed. 369; healing, Effect of methionine on production of mucopolysaccharides and collagen in, of protein-depleted animals, 639; healing, ed. 750
